

CHOICE OF CATEGORY: REGULARITY, CHALLENGER OR TOURING?

In all 3 categories, the Road Book is produced in a clear and precise manner: metric 'Tulip Arrow' and very little no distance Tulip arrow, but no road maps.

1/ REGULARITY: The category that tests the driving and navigation skills of the crew. There are between 25 and 30 different Regularity Tests over 5 days of rallying in the 'Free Start' mode. This means that the start time of each regularity test is left to the participant's choice when they arrive at the start area. The important thing is to start at a full minute and second timing, e.g. 13:31:00 second, not 13:31:22 seconds. The average timetables, including the average speed changes, are distributed by the organization beforehand. For variety, there are also 1 or 2 RTs without average speed tables but with time checks at specific points on the route. There are no penalizing time controls (TC) on the day. Average speeds range from 30 to 50 km/h maximum.

2/ CHALLENGER : The intermediate category between the Regularity and Touring, very popular since its launch in 2022. Only 2 to 4 easy Regularity Tests per day are planned for this category (2 in the morning and 2 in the afternoon), with of course a specific classification separate from the Regularity category.

This CHALLENGER category allows you to enjoy the landscapes more while keeping a little bit of competition and gives a little bit more spice to the route.

Always on 'Free Start' mode to keep a relaxed ride throughout each stage. Average speeds range from 30 to 50 km/h maximum.

3/ TOURING:

No rankings or time controls. Specific TOURING road book exclusively in Tulip Arrow with clear indications and signs. Distance measuring devices are recommended but not necessary. The starts are given after the Regularity categories. The route is sometimes a little shorter to arrive early at the stage hotel.

On the programmed for 2024: Visit to the karstic caves of Postojna, free afternoon in Cortina d'Ampezzo with a guided tour of the old town center, gondola ride to the top of one of the ski resort's mountains.
